

RAIN&NBSP;TROUSERS&NBSP;HAVEP® MULTI PROTECTOR+ - Model 80655

Collection

HAVEP® Multi Protector+

Norms

EN ISO 13688: 2013
A1: 2021

Description

These multinorm rain pants offer reliable protection against rain, flames, and other workplace hazards, without compromising comfort or freedom of movement. Thanks to the roomy fit, you can easily wear the pants over your existing workwear, allowing you to quickly adapt to changing weather conditions.

The combination of EN 343 Class 4/4, breathability, and mechanical stretch ensures you stay dry while maintaining comfortable mobility. The pants meet seven safety standards, including APC 1 protection against the thermal hazards of an arc flash and EN 17353 Type B2 for improved visibility when working in conditions with limited visibility. When combined with other Multi Protector+ garments, you can easily create a complete protective outfit tailored to your work.

Characteristics

- Elastic waistband with drawstring for adjustment
- Segmented reflective trim
- Adjustable legs with snap fasteners
