SHIRT HAVEP® MULTI PROTECTOR+ - Model 11003

Collection

HAVEP® Multi Protector+

Norms

Description

This shirt combines protection against multiple workplace hazards with high visibility in accordance with EN ISO 20471 Class 2. The inherently flame-retardant fabric provides protection against hazards such as heat, flames, electric arcs, electrostatic discharge, and limited chemical splashes. The segmented reflective strips around the torso and sleeves enhance your visibility and remain flexible as you move. Concealed snaps and flap-covered chest pockets keep fasteners and belongings covered. The adjustable cuffs ensure a snug fit, and the extended back panel provides extra coverage when bending over or reaching. The shirt is suitable for industrial washing.

Characteristics

- This work shirt meets 6 safety standards, including EN ISO 20471 Class 2 starting at size XS
