SHIRT HAVEP® MULTI PROTECTOR+ - Model 11004

Collection

HAVEP® Multi Protector+

Norms

Description

This shirt combines protection against multiple workplace hazards with high visibility in accordance with EN ISO 20471 Class 3. The inherently flame-retardant fabric provides protection against hazards such as heat, flames, electric arcs, electrostatic discharge, and limited chemical splashes. The 6 cm wide, segmented reflective strips around the torso and sleeves enhance your visibility and remain flexible during movement. Concealed snaps and flap-covered chest pockets keep closures and belongings secure. The adjustable cuffs ensure a snug fit, and the extended back panel provides extra coverage when bending over or reaching. The shirt is suitable for industrial washing.

Characteristics

- This work shirt meets 6 safety standards, including EN ISO 20471 Class 3 starting at size XS
